

Your first choice for IT systems, spares and services

Totis

Totis was founded as Total Inventory Solutions in 2001 to provide computer spare parts to IT and Maintenance companies.

Providing high quality PC and Laptop units and spares is still our core business but we have expanded to offer other key IT services.

location

Based in Warrington we are ideally located for IT and Maintenance companies in the North West and close to all motorway routes.

We understand that our customers will only buy what they need and so our focus is not on Sales but on Expertise. We recognise that IT buyers need to speak to someone who understands the jargon so we make sure we are up to date with technology and can talk your language. Equally we are keen not to make IT buying anymore complicated than it needs to be and can help to demystify technical enquires. *

*In fact our mission statement is:

“To provide a simple approach to IT by keeping close to technology and people with an honest, open and friendly manner and to become the first choice for IT solutions for business”

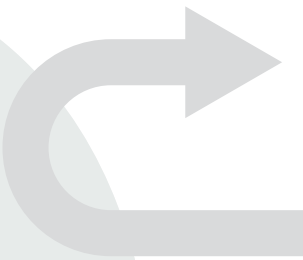

We are committed to building strong and lasting relationships and our guiding principles are:

- 01 Tell the truth and make realistic promises
- 02 Loyalty to our customers, staff and suppliers
- 03 Genuine sense of responsibility to solve IT problems
- 04 Commitment to build business relationships through product knowledge
- 05 Never over complicate

commitment

Range of services:

- 01 Supply of high quality PC and Laptop units and spares
- 02 Secure on line web store for ordering spares and peripherals for next day delivery
- 03 Maintenance Support Services
- 04 Data Recovery Services
- 05 Secure Data Erasure
- 06 Repairs
- 07 IT Remarketing, Disposal and Compliance with WEEE Directive

Service

We provide IT solutions for business supporting:

- 01 Notebooks, desktops & servers
- 02 Storage products
- 03 Networking products
- 04 POS products
- 05 Printers & consumables

Our partner accreditations enable us to offer the widest variety of equipment at competitive prices.

We supply spares and hardware for Toshiba, HP Compaq, Fujitsu Siemens Computers, Dell, Storagetek, Cisco, IBM, Lexmark, Tally, Brother, Western Digital, Symbol, Intermec and Xerox.

Totis remains a renowned supplier of IT spare parts; however we also provide asset management & remarketing services offering full compliance with the WEEE directive to help you to reduce costs and environmental waste.

We are constantly learning about new technology and we relish the challenge to supply “difficult” items.

We understand even the smallest part can be of the highest importance to your business and so we treat every order like our first.

Your first choice for IT systems, spares and services.
